Specification Sheet

Kem GLO[®] brand 5 Dry Pigmenter

DESCRIPTION A dry stabilized source of saponified red carotenoids from paprika for use in poultry feed.

INGREDIENTS Ground Corn Cob, Paprika Oleoresin, Propylene Glycol, Amorphous Silicon Dioxide and Ethoxyquin (a preservative up to 2.2%).

DIRECTIONS This product contains 2.27 grams of xanthophyll activity per pound, or 5.0 grams of xanthophyll activity per kilo. Mix thoroughly in complete feed.

The product can be used as a source of red pigment. Its high capsanthin content will leave eggs a deep yellow-orange color when used as the sole source of pigmentation.

STORAGE Store in a cool, dry place. Store opened bags in closed containers.
