# Turkey & Layer

## PRODUCT PORTFOLIO

Kemin uses advanced molecular science to develop industry-leading solutions for gut health, nutrition, feed quality, and pathogen control. It's just one of the ways we sustainably transform the quality of life every day for 80% of the world with our 500+ ingredients, which are all backed by technical, lab, and product support. This ensures you have a partnership where you get the most out of every product. We use our decades of experience and scientific expertise to unlock discoveries that improve poultry health — from better immune function to nutrient absorption.
