

Beef Product Portfolio

Canada

Nutrition

TRACE MINERALS

KemTRACE® Chromium

Highly bioavailable, organic source of chromium that optimizes how animals process glucose.

Acidifiers

ACIDIFIERS

Acid LAC™ liquid

Buffered liquid acidifier designed for the control of bacteria in drinking water.

Feed Quality

ANTIOXIDANTS

ENDOX® dry

Complete antioxidant system designed to stabilize high fat feeds and protect fat-soluble vitamins.

RENDOX® ET liquid

An antioxidant designed for poultry, pork and beef fat.

NATUROX® Premium liquid

A natural, botanical-based antioxidant product for livestock fat.

MOLD INHIBITORS

CURB® RM Extra liquid

A mold inhibitor for complete broiler and swine feeds and feed ingredients.

Feed CURB® dry

A mold inhibitor using a combination of organic acids to inhibit the growth of mold in complete livestock feeds and processed or flaked grains for livestock.

Myco CURB® dry and liquid

Blend of organic acids formulated to inhibit mold growth in livestock feeds.

SHIELD® Granules dry

A mold inhibitor for processed livestock feeds.

ZeniPRO® liquid

A mold inhibitor for wet distillers grains.

FLOW AGENTS

KALLSIL™ dry

An anti-caking aid and non-nutritive carrier to be used for further manufacturing of animal feeds.

FORAGE PRESERVATIVES

Ammo CURB® 85 liquid

A buffered liquid mold inhibitor for processed feed ingredients and livestock feeds.

FRESH CUT® liquid

Liquid hay preservative for hay harvested and baled at higher moisture levels.

Silage SAVOR® liquid

A liquid preservative for grass and legume silage that improves silage quality by increasing the retention of nitrogen in non-lactating dairy cows.

WHO IS KEMIN?

Kemin is more than an ingredient supplier; we are a global company inspired to improve the quality of life.

Every day, approximately 360,000 people join the human family. In less than 35 years, more than 9 billion people will be sharing the planet and its resources. At Kemin, we are finding scientific solutions to preserve and improve the quality of life for the growing population.

Built on exacting science and powered by human imagination, Kemin is an ingredient manufacturer committed to improving the quality, safety and efficacy of feed, food and health-related products. Through this commitment, Kemin touches more than 3.8 billion lives every day with our products and services.

Founded in 1961 by R.W. and Mary Nelson, Kemin began modestly on a family farm in Des Moines, Iowa, U.S. Today, Kemin is a leader in the ingredient manufacturing industry, providing innovative nutritional ingredient solutions to customers in more than 120 countries.

Kemin maintains top-of-the-line manufacturing facilities in which more than 500 specialty ingredients are made for humans and animals in the global feed and food industries, as well as the health, nutrition, textiles and commercial horticulture markets. Our involvement in many unique areas enables us to share and apply diverse insights and breakthroughs across industries.

With proven scientific knowledge, dedication to quality and safety, reliable technology and personalized service, Kemin is your total solution provider and a trusted advisor – helpful, honest and proven.
