2021

## FRESHER, SAFER, LONGER

**1992**

**Developed a liquid antimicrobial** that transformed how bakery & tortilla products are kept fresh

**2004**

**FORTIUM®, rosemary extract** for oxidation control in foods was launched

**2013**

**Received USDA approval for use of BactoCEASE®** (sodium propionate) in ready-to-eat meat products without an in-plant waiver

**1997**

**Began growing proprietary rosemary** with high level of carnosic acid, extracted to use in pet food products to protect against flavor and color loss

**2013**

**The Molecular Advancement Center (MAC) was opened** featuring 50,000 square feet of lab space, a test kitchen and sensory labs

**2019**

**Launched new line of ingredients for tortillas and flatbreads** — TillaPack™, TillaZyme™ and TillaSoft™

## HERITAGE + GROWTH

1961

**R.W. and Mary Nelson founded Kemin Industries to provide additives to the Midwest agriculture animal production market**, later expanding to provide animal nutrition and health products on six continents

1967

**Established worldwide headquarters (WWHQ)** in Des Moines, Iowa, U.S.

2004

**Formed Kemin Food Ingredients**, which later became Kemin Food Technologies (KFT)

2006

**KFT is expanded to a multi-regional business unit** with operations in Europe, South America and Asia Pacific

2017

**WWHQ was opened in Des Moines, IA** completing a 5-year investment of \$125.5 million in the Des Moines community

2019

**Launched new company logo and vision** — to sustainably transform the quality of life every day for 80% of the world with our products and services by 2042

2020

**Continued partnership with World Food Programme (WFP)**, which impacted more than 115 million lives in 84 countries

## SUSTAINABILITY LEADER

**Became first and only company in the world to have its proprietary rosemary Certified Sustainably Grown** by SCS Global Services

**Announced global sustainability vision to achieve net zero greenhouse gas emissions by 2050**
